

EVOLANCE INSTITUTE OF IT

# Capstone Juniors

Ages 11–15

30 Days

4 Phases

*A hands-on technology programme designed for the next generation*

IT Foundations

Internet & Productivity

Coding & Logic

AI & Projects

# IT Foundations

Getting comfortable with computers before anything else.

## Computer hardware basics

Learn what's inside a computer and what each part does

## Windows navigation

Desktop, taskbar, settings and keyboard shortcuts

## File & folder management

Create, rename, organise and search files confidently

## Typing speed & accuracy

Proper technique and building speed from day one

# Internet & Productivity

Real tools they can use in school and daily life straight away.

## Internet & safe browsing

How the internet works and how to search properly

## Online safety

Passwords, phishing, and protecting your digital footprint

## Microsoft Word basics

Type, format and save professional-looking documents

## PowerPoint & Canva design

Build presentations and design a poster to take home

# Coding & Logic

Building problem-solving thinking skills that last a lifetime.

## Computational thinking

Break problems into steps — the skill behind all coding

## Scratch visual coding

Build games and animations using drag-and-drop blocks

## Introduction to Python

First steps in a real programming language used worldwide

## Build a mini game

Students code and complete their own Scratch game project

**Phase outcome: Students complete and present their own coded Scratch project**

# AI & Final Project

Future-focused skills and a proud showcase moment for every student.

## What AI is & how it works

Understand AI in plain terms — what it can and can't do

## Writing good AI prompts

How to give clear instructions to get the best results

## Final showcase project

Students combine all their skills into one final piece

## Parent presentation day

Students present their work and receive their certificate

# What your child will walk away with

*Every student completes the course with real, tangible outcomes.*

Real computer  
confidence

A designed creative  
project

Their own coded game

Basic Python  
programming

Online safety awareness

AI literacy for the future

**30**  
days

**15+**  
skills

**3**  
projects
